Additional Information

Roles and Responsibilities	Additional Skills/Certification
-----------------------------------	--

Supervises and manages all drilling operations on-site to ensure safe, efficient, and continuous progress. Leads and organizes rig crews, assigns tasks, monitors performance, and maintains high productivity levels. Implements HSE standards and ensures strict compliance with safety procedures to prevent incidents and operational risks. Inspects and verifies equipment readiness, ensuring smooth and safe operation of all drilling tools and systems. Optimizes drilling performance by identifying improvement opportunities, reducing operational costs, and minimizing non-productive time (NPT). Coordinates with multidisciplinary teams and service providers to secure materials, logistics, and technical support. Applies well control expertise, including gas blowout management and emergency response decision-making. Monitors drilling data and daily progress, preparing accurate operational reports for supervisors and management. Supports equipment maintenance and troubleshooting, ensuring timely repairs and reducing downtime. Trains and guides crew members, especially in well control procedures and safe drilling practices.
