Roles and Responsibilities	Additional Skills/Certification
-----------------------------------	--

Dear Hiring Manager, I am writing to express my interest in the Driller / Heavy Equipment Operator / Foreman position. With several years of hands-on drilling experience across Canada—combined with strong heavy equipment operating skills, mechanical aptitude, and proven crew leadership—I am confident in my ability to contribute effectively to your team and help deliver safe, high-quality field results. My experience includes RC, air, water, and mud drilling using Novamac Geo-Maxs, Geo- Mags, Hornet, Muskeg, and Genius-Trac systems. I have worked extensively in remote, fly in and road access environments throughout the Yukon and Ontario, performing everything from setup and teardown to drilling, equipment maintenance, and hydraulic repairs. I am comfortable working long rotations, in challenging terrain, and in fast-paced drilling programs where efficiency and safety are critical. In addition to drilling, I have strong heavy equipment experience, including loaders, dozers, excavators, cherry pickers, telehandlers, and tracked carriers. I regularly perform equipment inspections, greasing, troubleshooting, and minor repairs to keep operations running smoothly. I also have a solid background leading and training crew members, ensuring every task is performed safely, correctly, and efficiently. What I bring to your company: • A strong commitment to safe work practices and field leadership • Excellent mechanical and hydraulic troubleshooting skills • Ability to operate and maintain a wide range of drilling rigs and heavy equipment • Proven reliability in remote, demanding environments • A positive, hardworking attitude and willingness to take on responsibility I would welcome the opportunity to discuss how my experience can support and contribute to the success of your projects. Thank you for considering my application. I look forward to speaking with you soon. Sincerely, Jeffery Murray
