----------------------------	---------------------------------

I am a skilled and motivated Mechatronics engineer with over Three years of experience in Coiled Tubing Well Intervention. I am a IWCF Level 4 Certified Well Intervention Engineer, recognized for high-level expertise in well control and intervention operations. I'm working in Integrated Well Services and solutions as CT and Stimulation Engineer. I also have have experience working as CT Operator. My expertise lies in oil field equipment maintenance, where I have effectively solved complex problems and optimized equipment performance. I am dedicated to continuous improvement and innovation in the oil and gas industry. I operate coiled tubing unit, Nitrogen Pumping unit, Stimulation pump and associated equipment. I have Gained valuable experience in operating and maintaining coiled tubing units for well interventions, including the maintenance of double pumps and batch mixers. Extensive experience in the operation and maintenance of coiled tubing equipment, including rig up, rig down, troubleshooting, and problem-solving. I have done a variety of jobs including Matrix Stimulation, Perforation wash through Coiled Tubing, Nitrogen Kick off and Plant Purging, Fishing, Cement Plug Placement Using Coiled Tubing, Well killing, and Power Clean for wells ranging from CAT-I to CAT-II. Experience in redressing Plug Valves, Check Valves, Chiksan, DFCV, and SpinCat, as well as assisting with redressing Pump's Fluid end (HT400) and BOP (4 1/16 15K Quad BOP). Hands-on experience with 60k and 80k S&S Injector Heads and execution of routine maintenance and Pre-Job Function tests of pressure control equipment.

IWCF level-4
Certified
