## Personal Information

<b>Candidate id</b>	4699
<b>Name</b>	Salah belaghit
<b>Date of Birth</b>	1995-09-19
<b>Salary (in USD)</b>	3000/Per Month
<b>Industry</b>	Oilfield Services
<b>Sub Industry</b>	Well Servicing & Testing
<b>Nationality</b>	Algeria
<b>Primary Language</b>	English,
<b>Secondary Language</b>	English,
<b>Total Years of Experience</b>	3

## Additional Information

<b>Roles and Responsibilities</b>	<b>Additional Skills/Certification</b>
-----------------------------------	--

Operating nitrogen unit and fluid pump. Base and field maintenance of equipment like coiled tubing units, N2 pump/converter, batch mixer, Preventers (Bop) choke manifold, flow back tanks, and fluid pump. Pressure-testing and charting. Equipment mobilization, rig-up and rig-down vacuuming of nitrogen tanks. Report and Log book up date. Servicing of plug valves and other valves servicing of swivel and treating irons. Flush coiled tubing reel with water and nitrogen. Job execution, clean out, Kick off Operation pumping equipment, such as operator triplex pump. Starts, operates, and stops the water injection pumps as required. These pumps pressurize and inject water into the well. Monitor and adjust the flow rates and pressure to ensure optimal water injection levels that maintain reservoir pressure without damaging the reservoir. Use control panels and monitoring systems to observe flow meters, pressure gauges, and control valves to ensure proper functioning. Routine Maintenance: Perform regular inspections and maintenance on pumps, pipes, valves, filters, and injection equipment to ensure smooth operation and prevent downtime. Identify and resolve operational problems, such as pump malfunctions, leaks, or blockages in pipes, to avoid interruptions in water injection. Water Filtration: Ensure that the water being injected is properly filtered and treated to avoid introducing contaminants, which could damage the reservoir or cause equipment issues. Chemical Injection Management: Some water injection systems require chemicals (e.g., scale inhibitors, corrosion inhibitors).

Coiled tubing... well testing

## Education Summary

Course	University	Passing Year	Country
Geologie	Usthb	2021	Algeria

## Career Summary

Position	Employer	Country	From	To
Lead pump operator (CT)	A.I.F.G	Algeria	02/2025	12/2025
