Salary (in USD)	12000/Per Month
Industry	Oilfield Services
Sub Industry	Wireline
Nationality	Turkey
Primary Language	Arabic,
Secondary Language	English,
Total Years of Experience	21

Additional Information

Roles and Responsibilities	Additional Skills/Certification
----------------------------	---------------------------------

I Halit Dirlik has held progressive roles with extensive responsibilities in oilfield services, centered on Electrical Submersible Pump (ESP) systems and well completions. As an ESP Commissioning Engineer with Baker Hughes and GE, my core duties involved the complete technical validation and activation of downhole pumping systems. This encompassed executing pre-commissioning inspections, conducting critical electrical integrity tests (megger, continuity), and performing final system energization in strict compliance with safety protocols. He was responsible for starting up and operating ESP systems using specialized controllers (e.g., REDA, Multiflo VSD), followed by configuring and calibrating Variable Frequency Drives (VFDs) and downhole monitoring sensors to optimize performance. In my Well Service Coordinator role for Gulf Marine Services, I acted as the primary operational liaison for ADNOC, coordinating all marine logistics and well service activities (wireline, coiled tubing) between the client, vessel crews, and third-party service companies. His duties included stringent HSE and permit management, ensuring compliance with ADNOC's Code of Practice, and overseeing the commercial and administrative aspects of vessel operations. Earlier, as a Field Specialist - Cased Hole Completions, I was the senior on-site authority for executing complex downhole completion operations, including packers, liner hangers, and sand control installations, while ensuring strict HSE adherence and providing direct client advisement.

Expert in ESP systems, power supply, and VFD control. Comprehensive HSE certs: BOSIET/HUET, firefighting, H2S, PTW, electrical safety. Trained in FCPA ethics, frontline management, SAP, and first aid. Compliant with major operator standards

Education Summary

Course	University	Passing Year	Country
Bachelor of Science in Electrical Engineering, Power Department.	Latakia	1999	Libya
