MULTI SERVICES LTD

Falcon Multi Services Ltd

201, Creado, Juhu Chruch Road, Juhu Mumbai 400049

Personal Information

Candidate id	5176
Name	Muhammad Fahad
Date of Birth	2005-08-29
Salary (in USD)	150/Per Month
Industry	Oilfield Services
Sub Industry	Perforation
Nationality	Pakistan
Primary Language	English,
Secondary Language	
Total Years of Experience	1

Additional Information

Roles and Responsibilities	Additional Skills/Certification
-----------------------------------	--

My responsibilities include servicing, inspection, and maintenance of downhole drilling tools such as MWD (Measurement While Drilling), LWD (Logging While Drilling), and RSS (Rotary Steerable System) tools. I have hands-on experience in tool assembly and disassembly, functional testing, calibration, and basic troubleshooting to ensure reliable performance in downhole conditions. I am also involved in tool programming and configuration, including sensor setup, data acquisition parameters, and tool communication checks to ensure accurate real-time data transmission. In addition to field and workshop operations, I have experience with well planning activities, including wellbore trajectory design and monitoring. I am familiar with preparing and reviewing BHA (Bottom Hole Assembly) designs based on drilling objectives, formation characteristics, and directional requirements. My role also includes understanding drilling programs, coordinating with drilling and directional teams, and ensuring tools are prepared according to job specifications and safety standards. Through this experience, I have developed a strong understanding of drilling operations, downhole tool behavior, and data-driven decision-making, while maintaining a high focus on safety, accuracy, and operational efficiency.
