<b>Industry</b>	Drilling / Rig
<b>Sub Industry</b>	
<b>Nationality</b>	Pakistan
<b>Primary Language</b>	English,
<b>Secondary Language</b>	
<b>Total Years of Experience</b>	13

## Additional Information

<b>Roles and Responsibilities</b>	<b>Additional Skills/Certification</b>
-----------------------------------	--

I am a multi skilled Petroleum Engineer, currently working as ‘‘Drilling Engineer’’ in Integrated Drilling Services – Well Engineering and operation optimization segment of ADNOC Drilling (Largest Drilling Company in Middle East). Before that, I worked in similar roles in Oil and Gas Development Company (Largest E & P Company in Pakistan) and United Energy Group (Formally known British Petroleum). This experience allowed me to enhance my problem-solving skills and provided me with a comprehensive understanding of the complexities associated with drilling projects. I have 13 years experience of well planning as well as field operations. I have worked in both E & P and Oil field services sector and possess extensive planning and operational experience of 100+ wells; Exploratory and development, vertical, deviated and horizontal HTHP deep drilling wells, long ERD wells, Shallow drilling wells & Work over wells in multiple concession areas with different operational challenges. What sets me apart is my ability to adapt quickly to dynamic work environments, collaborate effectively with cross-functional teams, and apply a detail-oriented approach to problem-solving. I am confident that my technical expertise, coupled with my passion for drilling engineering, makes me a valuable asset to your company. In my current role as a Drilling Engineer, I had the opportunity to work closely with seasoned professionals and contribute efficiently in drilling projects from planning to execution phase. I am responsible for analyzing drilling parameters, conducting risk assessments, and implementing safety protocols to ensure efficient and incident-free operations.

IWCF 4 Technical courses
