## Additional Information

Roles and Responsibilities	Additional Skills/Certification
<p>I am a highly experienced Senior Data Engineer and Wellsite Geologist with over 12 years in the oil and gas industry. Throughout my career, I have specialized in real-time data acquisition, sensor calibration, hydrocarbon monitoring, and formation evaluation. I have worked with leading international clients, managing critical drilling operations and ensuring compliance with safety protocols, including H2S safety measures. My expertise spans across various technical areas, including mud logging, geophysical data interpretation, and drilling optimization. I am dedicated to improving operational efficiency, driving innovation, and delivering precise and actionable data for effective decision-making in high-pressure environments. Passionate about continuous learning and mentoring, I am committed to leveraging my experience to contribute to the success of future projects and teams.</p>	<p>Real-Time Data Acquisition   Sensor Calibration   Hydrocarbon Monitoring   Formation Evaluation   Lithology Interpretation   Mud Logging   Pressure Logging   Gas Logging   Composite Logging   End of Well Reports (EOWR)   Drilling Parameter Monitoring .</p>
