## Additional Information

<b>Roles and Responsibilities</b>	<b>Additional Skills/Certification</b>
-----------------------------------	--

Drilling Supervisor with proven experience leading end-to-end drilling operations across multiple well types, ensuring safe, efficient, and cost-effective delivery from planning through execution. Highly skilled in supervising rig crews and coordinating service contractors while maintaining strict adherence to HSE policies, regulatory requirements, and company standards. Recognized for building a strong safety culture, conducting effective toolbox talks, audits, and risk assessments, and proactively managing operational hazards in real time. Demonstrates strong technical expertise in executing drilling programs, monitoring parameters, and making critical operational decisions to optimize performance and minimize non-productive time. Experienced in well control practices, trouble-shooting downhole challenges, and managing complex situations under pressure while maintaining operational continuity. Works closely with drilling engineers, geologists, logistics, and management teams to ensure alignment of objectives, efficient resource utilization, and cost control. Known for a hands-on leadership style, clear communication, and the ability to drive accountability across multicultural teams. Consistently delivers wells on schedule and within budget through disciplined planning, contractor performance management, and continuous improvement initiatives. Brings a results-oriented mindset, strong decision-making capability, and a commitment to operational excellence that adds measurable value to drilling campaigns and organizational goals.
