----------------------------	---------------------------------

Dedicated and certified HSE professional with over 7 years of international experience in the oil and gas sector across UAE, Qatar, Saudi Arabia, and India. Backed by a Mechanical Engineering background and proven expertise with major clients like ADNOC, Saudi Aramco, SABIC, and Qatar petroleum, I specialize in risk assessment, regulatory compliance, and safety leadership. Committed to fostering proactive safety cultures and driving sustainable, incident-free operations in high-risk environments. Roles and responsibilities; Implemented ADNOC Onshore and Target Engineering HSE policies at site. Ensured Job Safety Analysis (JSA), Risk Assessments, Method Statements and Work Procedures were prepared, reviewed, approved and implemented in line with the Project HSE Plan, ADNOC standards and Target Engineering HSE requirements Monitored site activities such as lifting operations, hot work, confined space, excavation and work at height. Ensured PTW (Permit to Work) system compliance for all activities. Carried out HSE inspections and site walk-throughs to identify unsafe acts and conditions Reported near misses, incidents and unsafe conditions and followed up corrective actions. Ensured compliance with HSE plans, method statements and ADNOC standards. Supported emergency response drills and site emergency preparedness and creating awareness about emergency among all the workforce. Reviewed lifting plans, critical lift studies for compliance with ADNOC lifting standards. Coordinated with SIMOPS (Simultaneous operations) activities and ensured risk controls were implemented according to the activities.
