Additional Information

Roles and Responsibilities	Additional Skills/Certification
-----------------------------------	--

I am a competent wireline supervisor/engineer with more than 19 years of experience managing complex logging operations for leading Oil and Gas companies. In my most recent position, I was responsible for overseeing all wireline logging operations for the RNBVK project in Kurdistan, Iraq including job design, Well logging program preparation, and execution. Proven expertise in Open/Cased hole logging, slickline, VSP, emergency operations and perforation (Wireline, TCP), fishing. Ensuring safety and efficiency in challenging environments like highly deviated wells, washed out boreholes, mud losses, high H2S content. Skilled in full contractor management, tendering processes, and contract evaluation. - Project Management: Orchestrated end-to-end project lifecycles, ensuring timely and on-budget delivery. - Financial & Contract Oversight: Managed contracts, administration, and cost control for the Geology department, optimizing resource allocation. - Operational Planning: Developed comprehensive Wireline and Slickline logging programs and job designs. Supervising of jobs execution. - Operations & Data Integrity: Supervised all Wireline logging and perforation operations, including real-time data QC, quick-look interpretation, and data management. - Procurement Support: Authored technical Scope of Work (SOW) documents and led technical evaluations for contracts.

Norwegian (B2)
