Dear L.Galdikaite I would like to apply for a 1st/2nd engineer (with a Class I Engineer Certificate with a DP Maintenance Course) with DP Vessel experience in various oil and gas companies. I have 19 years of experience as a variety of positions (4th Eng to C / E) engineer with AHTS, PSV, Crew Boat FSIV DP2, MPSV DP3 and Ships and has experience in various pattern techniques. I have a very good record as a reliable and productive employee. My attributes include my drive and determination to achieve the goals set by the company, I am a very practical person, with a good analytical mind and the ability to survive. I am accustomed to working as part of a team and also myself without supervision as well because of my marine engineering background, I can train successfully to make career changes as needed. I am looking for new challenges and the position of Chief engineer or 2nd engineer as a perfect opportunity. Your organization has an enviable record of innovation in the shipping business, and an excellent reputation as an employer, making that position more attractive. My last contract was as chief engineer at FSV DP2 Vessel in Trinidad BP and 2nd engineer CHUANG LI HLV DP3 project LAMPERLL construction contract with ARAMCO and has several Aramco approvals.. I am ready to interview as you wish after that date. I look forward to hearing from you soon. Yours sincerely HARJANTO SAMBODO

Dpvm, foet, H2s
