Roles and Responsibilities	Additional Skills/Certification
----------------------------	---------------------------------

I am writing to express my interest in the Material Logistics Analyst opportunity at your company. I hold a Bachelor's Degree in Production and Management from TATIUC and bring over 10 years of hands-on experience in the oil and gas industry, specializing in material management, logistics coordination, and warehouse operations. Throughout my career, I have served as a Storekeeper, Material Coordinator, Warehouseman, Material Expeditor, and Material Planner. These roles have strengthened my expertise in inventory control, material tracking, procurement coordination, documentation compliance, and ensuring timely material availability to support project execution. I am also experienced in handling offshore and onshore logistics requirements, stock accuracy, reporting, and optimizing material flow to minimize delays and cost overruns. Currently, I am involved in a Saudi Aramco project in KSA focusing on subsea pipe spool installation, where I manage material readiness, coordination with suppliers, and logistics planning to ensure smooth project delivery. I have attached my resume for your review and sincerely hope to contribute my experience, commitment, and proactive approach to your organization. Please feel free to contact me at +6016-9642303 or via this email if further information is required.
