## Additional Information

<b>Roles and Responsibilities</b>	<b>Additional Skills/Certification</b>
-----------------------------------	--

Managed stock levels in project warehouses, ensuring materials were available for construction, commissioning, and maintenance activities. Supervised warehouse staff and coordinated material inspection and receipt, including piping and structural steel, in compliance with ASME, ASTM, API, and BS standards. Used SAP MM to track POs, GRNs, and material movements, supporting accurate inventory reporting. Evaluated supplier performance and liaised with vendors to maintain reliable supply chains and minimize project downtime. Conducted periodic physical stock counts, ensuring alignment between system and physical inventory. Conducted weekly cycle counts and inventory reconciliation, reducing stock discrepancies by 15% and improving traceability. Developed storage and deployment plans for upcoming project materials, optimizing warehouse space utilization. Ensured quality compliance through vendor coordination and QC verification, resolving material disputes without affecting project timelines. Coordinated inbound and outbound logistics, guaranteeing timely deliveries to multiple project sites while maintaining strict HSE compliance.

Warehouse Operations & Materials Management  
Second-Line Supervision & Team Leadership
