## Personal Information

Candidate id	6771
Name	JOHN WELLESLY FURTADO
Date of Birth	1978-06-10
Salary (in USD)	12000/Per Month
Industry	Drilling / Rig
Sub Industry	Roustabout
Nationality	India
Primary Language	English,
Secondary Language	Hindi,
Total Years of Experience	17

## Additional Information

Roles and Responsibilities	Additional Skills/Certification
----------------------------	---------------------------------

Since 2009, I have worked as a Rig Electrician in a supervisory capacity on offshore and onshore drilling rigs, specializing in electrical systems management and team leadership. My responsibilities include overseeing the installation, operation, and maintenance of complex electrical systems, as well as troubleshooting and repairing high-voltage and low-voltage equipment such as motors, generators, and control panels. I have successfully led electrical teams during rig reactivation projects, ensuring safe and efficient restart of idle rigs through thorough inspections, testing, and certification of systems prior to deployment. A strong focus on safety and compliance has been central to my role, with strict adherence to international standards including BOSIET, HUET, COMPEX, and HSE regulations. I have implemented preventive maintenance schedules to minimize downtime and hazards, while mentoring and training junior electricians to build capable, safety-conscious teams. Collaboration with drilling supervisors, mechanical crews, and offshore management has been essential to align electrical operations with drilling schedules and maintain seamless rig performance. Additionally, I have managed power distribution systems, emergency backup generators, and rig lighting, while providing technical support to ensure uninterrupted electrical supply during drilling operations. My work includes preparing detailed maintenance logs, fault reports, and compliance documentation, and assisting in audits and inspections by regulatory authorities and client representatives.

Experienced Rig Electrician since 2009 with strong expertise in electrical systems, safety compliance, troubleshooting, and maintenance. Skilled in offshore/onshore operations, certified in electrical safety and high-voltage equipment handling.

## Education Summary

Course	University	Passing Year	Country
Electrical Engineering	IIMTS	2020	India

## Career Summary

Position	Employer	Country	From	To
Rig Electrician	Iran Oil Company	Iran	12/2009	07/2016
Rig Chief Electrician	Noble Drilling Cop	Malaysia	09/2016	04/2023
Rig Chief Electrician	Ades	India	05/2023	02/2026
