Roles and Responsibilities	Additional Skills/Certification
----------------------------	---------------------------------

I am a professional Marine Master holding a Full DP License and over 25 years of experience in the marine and offshore oil and gas sector, I bring a deep and proven knowledge of vessel operations, crew leadership, and offshore safety management. After graduating with honors from the Maritime Academy in Szczecin in 1998, I have built a diverse and global career across a wide range of offshore units, including construction, ROV, pipe laying, seismic, AHTS, diving support, FPSO, and drilling operations. I have served in senior leadership roles such as Master SDPO, Chief Mate, Marine Supervisor, and currently as OIM/Master on the drillship Atwood Archer. My operational experience spans some of the world's leading offshore companies and vessels equipped with advanced DP systems (primarily Kongsberg DP3). I have completed extensive work across numerous offshore campaigns, including on semi-sub, drill ships, and FPSOs, and held responsibility for both safe marine operations and coordination with drilling and subsea departments. I am confident in my ability to lead multi-disciplinary offshore teams, maintain high safety and environmental standards, and ensure operational excellence under high-pressure conditions. I am now seeking a new challenge where I can leverage my accumulated experience to contribute to the success of your offshore projects.

All STCW in hand
