Additional Information

Roles and Responsibilities	Additional Skills/Certification
-----------------------------------	--

Role: The Offshore Storekeeper is responsible for the control, storage, issuance, and inventory management of materials and equipment onboard an offshore facility, ensuring operational continuity, cost control, and compliance with safety and company procedures. Responsibilities:

- Inventory & Materials Management** Receive, inspect, and verify all incoming materials, tools, and equipment
- Maintain accurate inventory records (manual and computerized systems)
- Ensure correct storage, labeling, and preservation of materials
- Monitor stock levels and raise requisitions to avoid shortages or overstocking
- Conduct regular stock counts and audits
- Track critical and high-value spares
- Logistics & Coordination:** Coordinate with onshore logistics, procurement, and warehouse teams
- Prepare materials for backload, transfers, and vessel movements
- Ensure correct documentation for incoming and outgoing materials
- Support drilling, maintenance, and construction teams with timely material supply
- Safety & Compliance:** Ensure materials are stored in accordance with HSE standards and MSDS requirements
- Handle hazardous materials safely and maintain proper documentation
- Maintain good housekeeping in storage areas
- Participate in safety meetings, drills, and inspections
- Documentation & Reporting:** Maintain material movement records, stock reports, and consumption logs
- Update computerized inventory systems (e.g., SAP, Oracle, or similar)
- Report damaged, obsolete, or missing items
- Assist in audits and inspections
- Equipment & Tools Control:** Control issue and return of tools and equipment
- Track calibration status and certification of tools
- Ensure tools are properly maintained and stored
- General Duties:** Assist in emergency response as per offshore station bill
- Work closely with supervisors, engineers, and deck crew.

Strong organizational and record-keeping skills
Knowledge of offshore logistics and inventory systems. Understanding of HSE and hazardous materials handling. Basic computer literacy and inventory software experience.
