| Roles and Responsibilities | Additional Skills/Certification |
|-----------------------------------|--|

With over 20 years of experience in this field and related skills, I am confident my background in Tubular align well with your requirements of this role. In my previous role as a Field Technician Level 2, I have gained extensive knowledge and hands-on experience in various technical aspects. This experience has not only equipped me with the technical competence but has also prepared me in three key ways. Firstly, my tenure as a Field Technician Level 2 has allowed me to develop exceptional organization skills. I had to effectively manage multiple tasks, prioritize assignments, and ensure optimal allocation of resources to meet strict project deadlines. This ability to stay organized in a fast-paced work environment has greatly contributed to my overall effectiveness and productivity. Secondly, problem-solving has been a fundamental part of my role. I have encountered numerous technical challenges that required quick thinking and analytical problem-solving techniques. By then, I have developed a strong ability to approach problems objectively and find viable resolutions.

In addition to the aforementioned strengths, I possess excellent communication skills, both written and verbal, enabling me to effectively collaborate with team members and key stakeholders.

Education Summary
