Additional Information

Roles and Responsibilities	Additional Skills/Certification
-----------------------------------	--

<p>In my role, I am responsible for ensuring that all assigned tasks are completed efficiently, safely, and according to company standards. I supervise workers on site and make sure everyone understands their duties before starting the job. I conduct daily briefings to explain the work plan, highlight potential risks, and confirm that all safety procedures are followed. I monitor the progress of work to ensure it is carried out according to the approved plan and technical specifications. If any issues arise, I take immediate action to solve problems and prevent delays. I also coordinate with supervisors, engineers, and other departments to maintain smooth workflow and clear communication. Safety is a top priority in my responsibilities. I ensure that all workers use proper personal protective equipment (PPE) and comply with health, safety, and environmental regulations. I regularly inspect tools and equipment to confirm they are in good working condition and report any hazards or unsafe situations. Additionally, I prepare and submit daily reports detailing completed tasks, manpower, materials used, and any incidents or observations. I assist in planning upcoming activities and support management in achieving project targets within deadlines. I maintain discipline among workers and promote teamwork to create a productive and safe working environment.</p>	<p>Slickline operations, setting and pulling plugs, memory gauges installation, fishing tools handling, pressure control equipment, well integrity checks, troubleshooting, HSE compliance.</p>
