Secondary Language	
Total Years of Experience	9

Additional Information

Roles and Responsibilities	Additional Skills/Certification
-----------------------------------	--

I am responsible for ensuring that all products and services meet established quality standards and regulatory requirements. My responsibilities include conducting regular inspections, tests, and internal audits to identify non-conformities and areas for improvement. I monitor key performance indicators and analyze quality data to support informed decision-making and continuous improvement initiatives. I collaborate closely with cross-functional teams to investigate root causes of quality issues and implement corrective and preventive actions (CAPA). Additionally, I maintain accurate documentation, including quality reports, inspection records, and compliance files, ensuring full traceability and adherence to company policies. Part of my role involves supporting internal and external audits, updating quality procedures and work instructions, and promoting best practices across departments. I also provide guidance and training to employees to strengthen quality awareness and operational consistency. Through proactive monitoring and structured problem-solving, I contribute to improving efficiency, reducing errors, and maintaining high levels of customer satisfaction while fostering a culture of accountability and continuous improvement.

Bosiet H2S NDT
Level II (VT, PT,
MT, UT , RT)
