Additional Information

Roles and Responsibilities	Additional Skills/Certification
-----------------------------------	--

I am currently a Senior Drilling and Completion Engineer with QatarEnergy. I have more than 17 years of experience as a Drilling Engineer. My career thus far has exposed me to vast array of drilling, completion, workover and wellwork engineering disciplines ranging from concept select, well design, planning, operation execution, logistics and performance management. Safety has been pivotal in my line of work in delivering well commitments. I also engage service providers in advance to ensure tools delivered are of the highest quality and meet the intend service requirement in line with a highly performance and cost optimization driven culture industry. I have also been involved in various brownfield development activities encompassing from rigless intervention (Slickline, Wireline and CTU) to restore the well due to integrity issues or prepare it for re-entry drilling with a rig. I have done extensive work using Hydraulic workover unit, starting from contracting phase up to successful execution. Most significant assignment was an employment with ADNOC as an Extended Reach Drilling (ERD) engineer for 7.5 years, where I achieved an outstanding achievement, drilling the first longest ERD well in the UAE, at 40,321ftMD was the longest in Middle East and 9th longest globally at the time. Rest assured that I will be a valuable team player, in combination, with good leadership quality, will positively contribute to people development, flawless execution of drilling programs that will incorporate best practice, latest proven technology and cost optimization initiatives. I am a strong believer and promoter of multi-functional collaboration to bring profitability and sustainability to the organization.
