Loading un loading worker materials supplier company 12 hours daily duty and some time over time and safely supply materials other side locations end ? I'm Diploma of Associate engineering petroleum technology holder please job offer drilling operations Roustabout Here is a summary of the Roustabout role and responsibilities: A Roustabout is an entry-level, general manual laborer primarily in the oil and gas industry, working on onshore drilling rigs or offshore platforms. They are essential to the smooth and safe operation of the site, serving as the "hands" of the crew by handling a wide variety of physical tasks. Their core responsibility is the general upkeep and maintenance of the rig. This includes cleaning and painting equipment, maintaining clear walkways and work areas to prevent slips and falls, and transferring supplies and materials from boats or trucks to the rig. Roustabouts assist in moving and positioning heavy equipment using cranes and hoists, operating forklifts, and performing basic maintenance on machinery. They are also responsible for loading and unloading cargo, handling pipe and other tubular goods, and assisting with the mooring of vessels on offshore locations. Safety is paramount in this role. Roustabouts must strictly adhere to all safety protocols, wear appropriate personal protective equipment (PPE), and participate in safety meetings and drills. The job is physically demanding, requiring strength, endurance, and the ability to work outdoors in all weather conditions, as well as the willingness to work long shifts, often on a rotational schedule.
