Industry	Engineering & Science
Sub Industry	Physicist
Nationality	Egypt
Primary Language	Arabic,
Secondary Language	English,
Total Years of Experience	15

Additional Information

Roles and Responsibilities	Additional Skills/Certification
-----------------------------------	--

As an Assistant Driller, I support the Driller in executing safe and efficient drilling operations in accordance with company policies and international standards. I monitor drilling parameters including weight on bit, pump pressure, mud properties, and rate of penetration to ensure optimal performance and early detection of any abnormalities. I assist in supervising the drilling crew on the rig floor, ensuring that all activities such as tripping, casing, cementing, and well control operations are performed safely and efficiently. I am responsible for maintaining drilling equipment, reporting mechanical issues, and coordinating with the maintenance team to minimize downtime. I ensure strict compliance with HSE regulations and actively participate in safety meetings, toolbox talks, and risk assessments. In the absence of the Driller, I take responsibility for overseeing drilling operations and maintaining proper communication with the toolpusher and other departments. Additionally, I contribute to accurate reporting of daily drilling activities and support continuous improvement initiatives to enhance operational efficiency and safety performance.

I possess strong technical and operational skills developed through hands-on experience in drilling operations within challenging onshore and offshore environments. I have solid knowledge of drilling parameters

Education Summary

Course	University	Passing Year	Country
IWCF	Baniswef university	2008	Egypt

Career Summary

Position	Employer	Country	From	To
Assistant driller	Borr drilling	Libya	01/2025	02/2026
