<b>Sub Industry</b>	Ships Mate / Officer
<b>Nationality</b>	Brazil
<b>Primary Language</b>	Portuguese,
<b>Secondary Language</b>	English,
<b>Total Years of Experience</b>	18

## Additional Information

<b>Roles and Responsibilities</b>	<b>Additional Skills/Certification</b>
-----------------------------------	--

Manage and supervise the engine room crew, assigning tasks in accordance with planned preventive maintenance schedules and corrective maintenance requirements, ensuring all activities are carried out safely, efficiently, and in compliance with company procedures and class regulations. Coordinate daily maintenance routines, monitor ongoing work, and verify completion quality to maintain optimal performance and reliability of propulsion systems, auxiliary machinery, and critical support equipment. Maintain full operational readiness of engine room machinery and associated systems, including power generation units, pumps, compressors, fuel and lubrication systems, and control systems. Ensure proper housekeeping standards throughout the machinery spaces, promoting a safe, organized, and compliant work environment aligned with ISM Code and safety management system requirements. Oversee inventory management of spare parts, consumables, lubricants, and chemicals, maintaining accurate records and ensuring critical stock levels remain sufficient to support continuous operations. Prepare and submit detailed material requisitions in advance, anticipating major overhauls, scheduled maintenance, and unforeseen failures, thereby minimizing downtime and ensuring uninterrupted vessel operations. Monitor machinery performance parameters, analyze trends, and take proactive measures to prevent failures and optimize equipment lifespan. Assist in troubleshooting mechanical and operational issues, coordinating repairs with onboard personnel and shore-based technical teams when required. Ensure strict adherence to safety, environmental, and operational procedures, contributing to efficient vessel performance, regulatory compliance, and overall operational reliability.

Preventive and Corrective Maintenance.  
Reactivation Projects - including commissioning, sea trials and decommissioning.  
BOSIET OPITO

## Education Summary

Course	University	Passing Year	Country
Brazilian Merchant Marine School	CIABA-EFOMM	2004	Brazil
