Salary (in USD)	1500/Per Month
Industry	Maintenance & Inspection
Sub Industry	NDT Technician
Nationality	Bangladesh
Primary Language	English,
Secondary Language	Bengali,
Total Years of Experience	5

Additional Information

Roles and Responsibilities	Additional Skills/Certification
-----------------------------------	--

Responsible for complete plant-wide electrical maintenance, ensuring safe, reliable, and uninterrupted operation of production facilities. Performed routine and non-routine preventive and corrective maintenance on electrical systems and industrial equipment in compliance with safety standards and maintenance procedures. Actively involved in plant electrical installation and commissioning, supporting the setup, testing, and handover of new systems and equipment. Operated and maintained diesel generators, including scheduled maintenance such as oil change, fuel, air and lube filter replacement, load monitoring, and fault troubleshooting. Carried out operation and maintenance of boilers and air compressors, monitoring parameters, safety interlocks, and electrical control systems. Installed and terminated power and control cables, performed conduit bending, wiring, motor and panel terminations as per electrical drawings and schematics. Diagnosed and rectified electrical faults using manuals, single line diagrams (SLD), schematics, and test instruments. Supported PLC-based control systems, assisting in troubleshooting, signal checking, and panel-related electrical issues. Ensured strict compliance with LOTO procedures, HSE policies, and reported unsafe conditions to supervisors. Managed spare parts, consumables, and maintenance records, providing accurate reports to support planning and audits. Coordinated with supervisors, engineers, and cross-functional teams to minimize downtime and improve plant reliability.

Professional Accreditation Certificate (PACC) - Electrician. Microsoft Excel/Word
