<b>Nationality</b>	Tunisia
<b>Primary Language</b>	Arabic,
<b>Secondary Language</b>	English, French,
<b>Total Years of Experience</b>	15

## Additional Information

<b>Roles and Responsibilities</b>	<b>Additional Skills/Certification</b>
-----------------------------------	--

I am a Well Engineer with solid experience in drilling, workover, and well intervention operations, gained through several years of involvement in both field and office-based roles. My expertise covers the full well lifecycle from planning and design to execution, troubleshooting, and performance optimization. I have actively contributed to well integrity campaigns, workover programs, and fishing operations, ensuring that each activity is executed safely, efficiently, and in full compliance with company and international HSE standards. I have a strong background in operational optimization, having worked on initiatives to reduce non-productive time, enhance rig performance, and implement digital monitoring solutions. My experience also includes coordination between multidisciplinary teams, service companies, and field crews to deliver projects on time and within budget. With a deep understanding of well control, intervention techniques, and rig operations, I bring a balanced perspective that combines technical knowledge with practical field insight. I am highly adaptable, results-driven, and motivated to expand my international experience by contributing to challenging drilling and intervention projects in dynamic environments.

Drilling, workover Engineering, well integrity, well intervention, fishing operations, optimization, HSE, cost control, data analysis, digital monitoring, teamwork, problem-solving, and field supervision.
