Additional Information

Roles and Responsibilities	Additional Skills/Certification
-----------------------------------	--

As a Toolpusher, I understand that I would be responsible for supervising and coordinating all daily drilling activities to ensure safe, efficient, and cost-effective operations. I would oversee rig personnel, monitor drilling performance, and ensure that all work is carried out in accordance with the approved drilling program and company standards. Safety is my highest priority. I am committed to enforcing strict compliance with HSE policies, conducting regular safety meetings, and ensuring that all crew members follow established safety procedures. I would actively identify potential hazards, take immediate corrective action when required, and promote a strong safety culture across the rig site. In this role, I would also take responsibility for crew management, including scheduling, training, performance evaluation, and maintaining high morale among team members. Strong leadership, clear communication, and conflict resolution are essential to maintaining a productive and professional working environment. Additionally, I would ensure that all drilling equipment is properly maintained and inspected, coordinating closely with maintenance teams to minimize downtime. I understand the importance of inventory control, cost management, and maintaining operational efficiency while meeting project deadlines. In emergency situations, I am prepared to take immediate control, follow established procedures, and ensure the safety of personnel, equipment, and the environment. I am confident that my leadership skills, operational knowledge, and commitment to safety make me a strong candidate for the Toolpusher position. I look forward to the opportunity to contribute to your team and support successful drilling operations.

Well control level 4,
Fast decision, problem solving. Training junior members.
Willing to assist to increase rig performance.
