## Additional Information

<b>Roles and Responsibilities</b>	<b>Additional Skills/Certification</b>
-----------------------------------	--

I worked as an Assistant Operator in oil and gas field operations at ExxonMobil Cepu Limited. My main responsibilities were supporting daily production activities and assisting operators in maintaining safe and stable plant operations. I monitored equipment performance and operational parameters such as pressure, temperature, and flow to ensure systems were running within safe limits. I conducted routine field inspections to identify abnormal conditions and reported them to supervisors or senior operators. I also assisted the maintenance team during equipment inspection, troubleshooting, and repair activities to minimize downtime and maintain production efficiency. In addition, I supported start-up and shutdown activities and ensured all tasks followed company procedures and safety regulations. Throughout my work, I strictly followed HSE standards and safety procedures to prevent incidents and maintain a safe working environment. I worked closely with operators, technicians, and supervisors to ensure smooth communication and effective teamwork in daily operations. My role helped support reliable production and safe operations in the field.

Basic Safety Training, Chemical Handling Awareness, PPE Compliance, Equipment Inspection, Pump and Valve Operation Support, Lock Out Tag Out (LOTO) Awareness, with field operations experience at ExxonMobil Cepu Limited..
