Personal Information

Candidate id	8299
Name	Alawad Alhadi Alawad Ahmed
Date of Birth	1998-09-14
Salary (in USD)	1300/Per Month
Industry	Production
Sub Industry	Production Technologist
Nationality	Sudan
Primary Language	Arabic,
Secondary Language	English,
Total Years of Experience	5

Additional Information

Roles and Responsibilities	Additional Skills/Certification
-----------------------------------	--

In my previous role, I actively supported offshore field operations in SIMOPS environments, working closely with operations, maintenance, and HSE teams to ensure the safe and efficient execution of well-related activities. My responsibilities included assisting with well isolation and de-isolation procedures, supporting pressure testing operations, and performing valve integrity checks to verify equipment readiness prior to operational activities. I was involved in coordinating work through the Permit to Work (PTW) system, ensuring all tasks were executed in full compliance with company safety standards and operational procedures. I continuously monitored field conditions, including pressure, flow, and equipment performance, and promptly reported any abnormalities or unsafe conditions to supervisors. Additionally, I assisted in preparing equipment, tools, and work areas for well intervention and maintenance activities, ensuring that operational teams had the necessary support to perform their tasks safely and efficiently. I also participated in toolbox talks, risk assessments, and hazard identification processes to maintain a strong safety culture within the team. Through my role, I developed strong field awareness, communication skills, and the ability to work effectively in high-risk operational environments while maintaining strict adherence to HSE regulations and operational discipline. I remain highly motivated to expand my practical experience in well intervention operations and contribute to safe and efficient field operations.

Skilled in oil & gas field operations with SIMOPS awareness, PTW systems, pressure testing support, valve operations, and strong HSE compliance.

Education Summary

Course	University	Passing Year	Country
Petroleum and natural gas engineering	University of Khartoum	2022	Sudan

Career Summary
