Additional Information

Roles and Responsibilities	Additional Skills/Certification
-----------------------------------	--

With over 10 years of experience in the offshore sector, I am applying for the Roustabout or Floorman positions. My career is marked by solid performance in drilling, maintenance, and completion units, always focused on operational efficiency and rigorous safety. Throughout my journey, I have developed essential skills that allow me to immediately contribute to your team. Deck and Drilling Operations: Extensive experience in drilling and completion maneuvers, ensuring the necessary support for the continuous flow of operations. Cargo Handling and Logistics: Technical experience in receiving vital supplies, such as fuel and water, as well as the safe handling of cargo on deck. Maintenance and Organization: Proactive approach to the conservation and cleaning of the unit, understanding that an organized platform is the first step towards a safe environment. Safety Culture: For me, safety is not just a rule, but a value. I work with the commitment to ensure that, at the end of each voyage, we can all return safely to our families. Team Spirit: I strongly believe in unity. I enjoy sharing knowledge and celebrating achievements with my colleagues, maintaining high morale and focus on collective results. I am a proactive professional, accustomed to the intense routine of offshore work and ready to face new challenges, always respecting the company's technical procedures and HSE standards. I am available for an interview, where I can detail how my decade of experience can add value to your operations. Sincerely, Josimar de Paula Teixeira
