

**FALCON®**  
MULTI SERVICES LTD

**Falcon Multi Services Ltd**  
201, Creado, Juhu Chruch Road, Juhu Mumbai 400049

## Personal Information

<b>Candidate id</b>	8335
<b>Name</b>	Sankarraaj R
<b>Date of Birth</b>	2002-04-17
<b>Salary (in USD)</b>	1000/Per Month
<b>Industry</b>	Production
<b>Sub Industry</b>	Production Technologist
<b>Nationality</b>	India
<b>Primary Language</b>	English,
<b>Secondary Language</b>	Hindi,
<b>Total Years of Experience</b>	4

## Additional Information

<b>Roles and Responsibilities</b>	<b>Additional Skills/Certification</b>
-----------------------------------	--

Production and field operations in the oil and gas industry involve several important activities to ensure safe, efficient, and continuous production. Production Enhancement Operations focus on improving well productivity through optimization and monitoring of production parameters. Artificial Lift Operations help increase oil production when natural reservoir pressure is not sufficient, using methods such as gas lift or pumps. Process Operations involve monitoring and controlling equipment used for separating oil, gas, and water to maintain smooth plant operations. Marine Operations support offshore activities, including supply vessel coordination and safe transportation. Maintaining Environmental Health & Safety (EHS) Standards is essential to protect workers, equipment, and the environment. Wellhead Operations ensure proper control and monitoring of well flow at the surface. Laboratory Experiments are conducted to test fluid samples and evaluate production quality. Emergency Response procedures prepare personnel to handle accidents, fires, or gas leaks safely. The Permit to Work System ensures that all maintenance and operational tasks are performed safely with proper authorization. Chemical Injection Operations help control corrosion, scale formation, and hydrate formation in pipelines and equipment. Boiler Operations provide steam or heat required for certain processing activities. Well Testing is carried out to measure well performance and reservoir characteristics. Workover Operations involve major maintenance of wells to restore production, while Well Intervention Operations include smaller corrective actions to improve well performance.

Bosiet with EBS, ILO Medical Certificate with Offshore Medical Fitness, IWCF & WOCRM.

## Education Summary

Course	University	Passing Year	Country
B.E. Petroleum Engineering	AMET University	2019	India

## Career Summary

Position	Employer	Country	From	To
Graduate Engineer Trainee - Production	Prescott Venture Pvt Ltd	India	07/2023	07/2024
