MULTI SERVICES LTD

Falcon Multi Services Ltd

201, Creado, Juhu Chruch Road, Juhu Mumbai 400049

Personal Information

Candidate id	8555
Name	Muhammad Ateeb Qureshi
Date of Birth	1987-04-20
Salary (in USD)	2000/Per Month
Industry	Trades & Technicians
Sub Industry	Electrician
Nationality	Pakistan
Primary Language	Hindi,
Secondary Language	English,
Total Years of Experience	17

Additional Information

Roles and Responsibilities	Additional Skills/Certification
-----------------------------------	--

I am professionally associated with the switchgear industry, where I have practical experience in manufacturing, maintenance, and site installation of electrical panels. My work mainly involves handling industrial switchgear panels including MV (Medium Voltage), LV (Low Voltage), and HV (High Voltage) systems. I am actively involved in both factory-based production activities and on-site installation projects. In the manufacturing process, I perform and supervise several technical tasks such as panel assembly, electrical wiring, quality inspection, and factory testing to ensure that the equipment meets the required technical and safety standards. My responsibilities also include checking the overall workmanship, verifying wiring accuracy, and ensuring that panels are properly prepared for installation and operation. However, Relay programming is not part of my responsibilities. In addition to my technical experience, I have also gained considerable knowledge related to HSE (Health, Safety, and Environment). Although I do not currently hold a formal HSE certification, I have completed multiple technical and safety-related trainings. I actively apply these safety principles during my work in both factory environments and site installations. I have experience implementing basic safety procedures, hazard awareness, and safe working practices to ensure a safe working environment for the team. Overall, I have developed strong technical, practical, and safety-related skills through hands-on experience in the switchgear industry, and I continue to apply these skills to improve work quality, efficiency, and workplace safety.

I have completed a one-year Industrial Electrician course, where I gained basic knowledge and practical skills in industrial electrical work. I have also obtained an Electrical Safety Certification from Siemens Pakistan Engineering.

Education Summary

Course	University	Passing Year	Country
Electrical Technology	New Port Institute	2012	Pakistan

Career Summary

Position	Employer	Country	From	To
As a Electrical Contractor in Siemens Pakistan Engineering	Proprietor	Pakistan	03/2009	03/2026
