-----------------------------------	--

????, ??? ?????????? ??????? ?200+ ???, ?????? ?????? ????????? ???
 ?????????????????? ??????: Additional Information / Roles and
 Responsibilities Experienced oilfield professional with strong background
 in Coiled Tubing (CT) and Hydraulic Fracturing operations. Skilled in
 working in field environments under demanding conditions and rotational
 schedules. Good understanding of oilfield safety standards, operational
 procedures, and HSE requirements. Able to work effectively in harsh
 climates and high-pressure operational environments while maintaining
 high safety awareness and operational discipline. Performed various coiled
 tubing operations, including preparation of equipment, monitoring of
 pumping processes, and assisting in well intervention activities.
 Participated in hydraulic fracturing operations, supporting pumping
 activities and ensuring proper execution of fracturing programs according
 to operational guidelines. Responsible for preparation and handling of
 fracturing fluids, including mixing and monitoring fluid quality according
 to job requirements. Conducted installation, dismantling, and maintenance
 of oilfield equipment, ensuring that all tools and systems were functioning
 correctly before and after operations. Experienced in transportation of
 hazardous materials and oilfield equipment, following safety regulations
 and company procedures. Maintained strict compliance with HSE
 standards, participated in safety meetings, risk assessments, and ensured
 safe work practices during all field operations. Demonstrated ability to
 work effectively as part of a team, maintain equipment reliability, and
 support successful completion of oilfield operations.
