-----------------------------------	--

Operational Management: Oversight of full-cycle drilling, completion, and well intervention operations for deep HPHT gas wells (+4500m to 6500m). Currently managing a supervision budget of \$4.2M and coordinating 9 rigs simultaneously (ZJ 50, ZJ-70 and ZJ-90 DBS units). **Engineering & Design:** Planned and implemented 300+ BHA configurations, achieving a failure rate of less than 0.5%. Conducted comprehensive casing and tubing stress analysis and hydraulic modeling using Halliburton Landmark software (WellPlan, WellCat, StressCheck) to ensure string integrity in high-pressure environments (+81 MPa). **Directional Drilling:** Managed 35+ complex sidetracking operations, including window milling and whipstock orientation. Drilled ERD with no LTI (Whipstock at 1600m>Window milling> 4 ½’ open hole over 2250m with Mud Motor, INC 61?, SPP > 260 bars) - with Mud Motor) and 3D profiles using APS, NOV Tolteq Relief Wells: Directed the drilling of 2 relief wells (+2500m TVD) to kill a surface gas blowout with H2S > 20 ppm on the M25 project, Uzbekistan **Optimization & Cost Control:** Increased ROP by 60% in hard rock formations through custom parameter optimization. Successfully rescued stuck pipe incidents without jars, saving approximately \$400K in operational costs. **Project Leadership:** Leading a multidisciplinary team of up to 120 personnel, ensuring strict adherence to technical specifications and minimizing Non-Productive Time (NPT) across multiple project sites in Uzbekistan and Russia.

Software: Halliburton Landmark (Compass, WellPlan, StressCheck, WellCat), Peloton Suite, BurSoft Project Tech: ERD, Sidetracking, Window Milling, Relief WellsL/MWD (APS, NOV). **Certifications:** IADC WellSharp (Supervisor Level), H2S Awareness, First Aid Training, RigPass, Workover & Completion operations, Supervising management training program **Specs:** HPHT (+81 MPa / 196°C), ZJ 70/90 DBS rigs, Long-lead procurement, 35+ sidetracking operations
