

FALCON[®]
MULTI SERVICES LTD

Falcon Multi Services Ltd
201, Creado, Juhu Chruch Road, Juhu Mumbai 400049

Personal Information

Candidate id	9326
Name	Kacem Bouras
Date of Birth	1987-07-01
Salary (in USD)	9000/Per Month
Industry	Drilling / Rig
Sub Industry	
Nationality	Algeria
Primary Language	English,
Secondary Language	French,
Total Years of Experience	12

Additional Information

Roles and Responsibilities	Additional Skills/Certification
-----------------------------------	--

- Plan and perform well intervention activities, Provide Technical Support to well supervisors - Field supervision of well intervention crew during intervention work. - Ensure performance of all work according to procedures and HSE requirements on site - Preparation of well intervention programs - Develop and implement specific intervention procedures and intervention programs - Prepare and supervise all well intervention operations - Prepare well intervention reports - Delegated Area Authority for PTW - Act as a liaison with the other departments and groups - Manage Wells Integrity from Well Design, Well Construction, Operational Phase, and Well abandonment. - Commit in Implementing of all procedures in managing well Intervention Operations - Ensure compliance of well operators and wells servicing with procedures, guidelines, standards, and regulations. - Train all personnel Involved and confirm that they understand all key aspect of Well Intervention Operations. - Conducting risk assessment, and apply repairs or mitigation measures, following pre-prepared procedures and international standards (NORSOK, ISO, API, IOGP, ANSI...). - Initiate the course of action need to take for any failure - Onsite auditing during any kind of Drilling or Well Intervention operations (Drilling, Cementing, Completion, Testing, Well Handover, Production, Stimulation, Injection, Etc. - Initiate modifications in wells or gathering system component, preparation of (OPS) operation query, and follow up the (MOC) management of change implementation. - Injection Sealing Products, Changing the failed parts, make the necessary repair operations - Good Knowledge about: Well Design, Deviated and Horizontal Drilling, HPHT Wells, Tubing and Casing Stress Analysis, Artificial lift Wells, Old Degraded Wells, Corroded Wells, Deep Water Wells, Well Interventions, Well Abandonment, Well Testing and Pressure Testing. - Simulate the well performance and optimize gas wells production using Integrated Production Modelling with Prosper, Gap and MBAL. - Prepare Well Intervention Operations plan, Well Intervention Programs. - Support Well Supervisors, Production Engineers, wells Maintenance team and develop any new well technics. - Down hole pressure monitoring by both permanent and retrievable pressure gauges and check the Quality of down hole gauges' data, Preparation and maintenance of Surface and Downhole gauges. - Investigate any flow assurance problem and propose solutions taking into account the minimum costs

IWCF: Well Control Level 4, IWCF: Well Interventions Level 4, Slick Line, Coiled Tubing, Well Testing, Workover, Well and Completion Design, Well Integrity Engineering, Petroelum Engineering

Education Summary

Course	University	Passing Year	Country
Gas and Oil Production	Kasdi Merbah Ouargla	2011	Algeria

Career Summary

Position	Employer	Country	From	To
Well Intervention and Well Integrity Engineer	JVGas	Algeria	04/2015	04/2026
