Falcon Multi Services Ltd

201, Creado, Juhu Chruch Road, Juhu Mumbai 400049

Personal Information

Candidate id	9337
Name	Zaheem Abbas
Date of Birth	1982-12-25
Salary (in USD)	500/Per Day
Industry	Geosciences
Sub Industry	Geophysicist
Nationality	Pakistan
Primary Language	English,
Secondary Language	English,
Total Years of Experience	18

Additional Information

Roles and Responsibilities	Additional Skills/Certification
-----------------------------------	--

As Wellsite Geologist my supervisory duties comprises of ? Monitoring & quality control of Mud Logging, Wireline Logging, Directional Drilling, VSP, Coring & Perforation operations on wellsite. ? Formation evaluation by interpretation of geological samples, gas data and drilling parameters and LWD/WL logging data. ? Hydrocarbon shows evaluation & deciding the top of new formations. ? Correlation with offset wells & geo hazards indication before drilling that zone. ? Deciding casing/coring points & section/final TD of well. ? Drilling risk assessments before drilling each hole section and communicated same to Company man. ? Safely & standard execution of Wireline Logging and Coring operations. ? Quick look interpretation of Wireline Logging data. ? Conventional Core and Side Wall Core handling & description. ? Supervising Perforation operations. ? Study of basin and regional tectonics for better geological interpretation. ? Online communication with Field Base Camp & Head office. ? Preparing Morning/Afternoon/Evening/Final Well Geological reports. ? Giving suggestions to company man according to geological formation for well control and safe drilling. ? Implementation of H.S.E policies & measurements. Job Responsibilities During Directional/Horizontal Wells ? Confirmation of Kickoff, Entry & Landing points. ? Tracking well trajectory as per plan. ? Continuous monitoring and quick look interpretation of LWD data ? Geo Steering according to changes in formation. ? Frequet correlation of TVD logs with offsets ? Early indication of formation hazards.
