-----------------------------------	--

Senior DSV/Rig Foreman with ultimate on-site responsibility for HSE, safety leadership, & RT operational command. ? Full authority for drilling, workover, & intervention activities, including well control, BOP testing, & CMT operations. ? Expert in troubleshooting major downhole problems at the wellsite: well control, lost circulation, & stuck pipe. ? Experienced in HPHT operations, relief well planning, and managing complex P&A campaigns. ? Hands-on supervision of casing/liner running, cementing, and well interventions (CT, fishing, snubbing, slot recovery). ? Directed comprehensive workover programs (WSO, re-completion, artificial lift). ? Coordinated daily rig logistics, materials, & personnel to ensure operational continuity & minimize NPT. ? International and Challenging field experience, including Deepwater (Zohr Field) operations. ? Proven ability to lead & integrate multi-disciplinary teams on location. ? Full-cycle well planning & program writing proficiency supports robust field execution. ? Field application of well design, directional drilling (MWD/LWD/RSS/geosteering), & drilling mechanics analysis. ? Onsite pore pressure monitoring, torque & drag surveillance, and drilling fluid management. ? Created operational dashboards & controlled AFEs/costs from the wellsite. ? Managed contractor performance, technical evaluations, & supported tender processes. ? Leveraged digital tools & data for real-time performance benchmarking and decision-making.

IWCF-4 , BOSIT,
HUET
