

FALCON®
MULTI SERVICES LTD

Falcon Multi Services Ltd

201, Creado, Juhu Chruch Road, Juhu Mumbai 400049

Personal Information

Candidate id	9413
Name	Mahmoud Megawer
Date of Birth	1999-01-20
Salary (in USD)	2500/Per Day
Industry	Oilfield Services
Sub Industry	MWD / LWD
Nationality	Egypt
Primary Language	Arabic,
Secondary Language	English,
Total Years of Experience	5

Additional Information

Roles and Responsibilities	Additional Skills/Certification
-----------------------------------	--

monitor, record, and interpret drilling data in real time to ensure safe and efficient drilling operations. As a Mud Logger, I continuously observe key drilling parameters such as rate of penetration, pump pressure, mud weight, and flow rate to identify any abnormal trends that could indicate potential problems like kicks, losses, or formation pressure changes. Early detection is critical to prevent serious well control incidents. In addition to monitoring drilling parameters, I am responsible for gas detection and analysis. This includes measuring total gas, connection gas, and trip gas, and identifying any unusual increases that may signal the presence of hydrocarbons or hazardous conditions. I also collect, wash, and describe drill cuttings at regular intervals, providing accurate geological descriptions of the formations being drilled. Another important part of my role is maintaining detailed logs and preparing daily reports, which are shared with the drilling team, company man, and geologists. Clear communication is essential to ensure that any abnormal situation is reported immediately and appropriate actions are taken. Overall, my role supports decision-making on the rig, enhances operational efficiency, and most importantly, contributes to maintaining a safe drilling environment by minimizing risks and preventing potential hazards.

OSHA General Industry & Risk Assessment HSE & H2S Induction, Basic & Advanced Mud Logging , Formation Pressure Evaluation (self-study) , Well Control (self-study) Wireline Logging and Rock Physics. Real-time Data Monitoring & Interpretation Drilling Data Systems (e.g., DTCIS) Formation Pressure & Pore Pressure Analysis Microsoft Office Suite (Excel, Word, PowerPoint) Lithology & Sample Description Technical Reporting & QA/QC

Education Summary

Course	University	Passing Year	Country
Bachelor degree in Geophysics (Excellent With honors degree)	Al-Azhar University	2020	Egypt

Career Summary

Position	Employer	Country	From	To
Mud Logger	PetroServices GmbH, Egypt	Egypt	10/2020	10/2021
Mud logger /Wellsite Geologist/ Data Engineer	Oman Sea PetroServices LLC	Oman	10/2021	04/2026
