

FALCON®
MULTI SERVICES LTD

Falcon Multi Services Ltd
201, Creado, Juhu Chruch Road, Juhu Mumbai 400049

Personal Information

Candidate id	9431
Name	Aryanto Kiwar
Date of Birth	1971-11-22
Salary (in USD)	9000/Per Month
Industry	Drilling / Rig
Sub Industry	Rig Electrician
Nationality	Indonesia
Primary Language	English,
Secondary Language	
Total Years of Experience	25

Additional Information

Roles and Responsibilities	Additional Skills/Certification
-----------------------------------	--

led a multidisciplinary drilling team composed of one senior and four junior engineers in planning and executing operations across the Ujung Pangkah Field. This role required strong leadership and technical oversight, ensuring that all activities were carried out safely, efficiently, and in compliance with company standards. I coordinated extensively with subsurface teams, service companies, and logistics providers to optimize resource allocation and maintain seamless operational continuity. My responsibilities also included authoring and reviewing detailed drilling programs, AFEs (Authorization for Expenditure), and end-of-well reports, which demanded precision in both technical and financial aspects. Beyond internal coordination, I acted as the primary company liaison with SKK Migas, the host authority, managing communications and approvals throughout the entire well lifecycle—from initial proposal and operational execution to final closeout. This position required balancing technical expertise with stakeholder management, ensuring that projects were delivered on time, within budget, and aligned with regulatory expectations. By integrating team leadership, operational planning, and external engagement, I contributed to the successful delivery of complex drilling projects while fostering collaboration across diverse technical disciplines

Core Competencies: Technical Expertise: Well Design & Planning, Risk Assessment, Drilling Optimization, BHA Design, Pore Pressure Prediction, Cementing Design, Cost Control & AFE Preparation, Vendor Management. Software & Applications: Compass, Well Plan, Stress Check; Reporting Systems: WellView & Open Wells; Design Tools: AutoCAD, MicroStation Industry Standards: API 6A, 17D, 5CT; ISO 16530 / NORSOK D-010; NACE MR0175 (Sour Service) Leadership & Management: Team Leadership & Mentoring, Strategic Planning, Performance Management, Cross-Functional Collaboration, Client & Stakeholder Relations, Contract Negotiation, Operational Readiness Reviews (ORR) Certifications & Credentials: T-BOSIET (Tropical Basic Offshore Safety Induction & Emergency Training, OPITO Approved) – Valid until 06 September 2026; includes Emergency Breathing System & Travel Safely by Boat IWCF Well Intervention Pressure Control (Level 4): Wireline, Snubbing, and Coiled Tubing Operations – Valid until 26 February 2028 IADC WellCAP (Supervisor Level, Surface Stack Qualification): Completed September 2012 (expired September 2014; listed for historical record) Academic Credentials: Master of Petroleum Engineering (M.T.), Bandung Institute of Technology (ITB), 2013; Bachelor of Mechanical Engineering (S.T.), Institut Sains dan Teknologi Nasional (ISTN), 1998

Education Summary

Course	University	Passing Year	Country
Bachelor of Mechanical Engineering	National Institute for Science & Technology	1998	Indonesia
Master of Petroleum Engineering	Bandung Institute of Technology (ITB)	2013	Indonesia

Career Summary

Position	Employer	Country	From	To
Operation & Well Intervention Manager	Petronas Carigali KETapang LTD	Indonesia	08/2022	12/2025

Position	Employer	Country	From	To
Drilling Team Leader	Saka Indonesia Pangkah Ltd	Indonesia	02/2025	04/2026
