Additional Information

Roles and Responsibilities	Additional Skills/Certification
-----------------------------------	--

As a Chief Mechanic in the Oil & Gas sector, I am responsible for supervising all mechanical activities related to heavy equipment and machinery on site. I manage a team of technicians and ensure that all maintenance and repair tasks are completed efficiently and safely. My role includes diagnosing mechanical faults, troubleshooting complex issues, and ensuring the smooth operation of engines, pumps, compressors, and other rig equipment. I plan and implement preventive maintenance schedules to minimize equipment breakdowns and reduce downtime. I also ensure that all work is carried out in accordance with safety standards and company procedures. In addition, I maintain records of maintenance activities, repairs, and equipment performance. I coordinate closely with other departments to support overall operations and ensure timely completion of tasks. I am also responsible for ensuring the availability of spare parts, tools, and resources required for maintenance work. In emergency situations, I respond quickly to resolve mechanical failures and restore operations. My focus is on maintaining high efficiency, safety, and reliability in all mechanical operations.
