Secondary Language	English,
Total Years of Experience	3

Additional Information

Roles and Responsibilities	Additional Skills/Certification
-----------------------------------	--

Dear Sir, I hope this email finds you well. I am a Mechanical Engineer currently working as a Surface Well Testing (SWT) and Data Acquisition (DAQ) Engineer in the Oil & Gas services sector. I possess a strong command of well testing principles along with extensive hands-on experience in surface well testing operations, including rig-up/rig-down, choke manifold operations, pressure testing of wellhead and surface equipment, and flowback management under varying well conditions. My technical expertise includes conducting high-pressure testing in compliance with safety standards, monitoring well performance parameters, and ensuring accurate data logging and reporting. I am proficient in data acquisition systems, particularly using Fekete FAST software for real-time analysis, interpretation, and validation of well test data. Additionally, I am experienced in troubleshooting field instrumentation, maintaining data integrity, and coordinating with multidisciplinary teams to ensure smooth and efficient operations. I am highly motivated to contribute my technical skills and field experience to your organization. I would appreciate the opportunity to be considered for any relevant positions matching my qualifications. Thank you for your time and consideration. Kind regards, Muhammad Rizwan Ur Rahman SWT / DAQ Engineer

Data acquisition, communication, solving, teamwork and team management
