

FALCON®
MULTI SERVICES LTD

Falcon Multi Services Ltd

201, Creado, Juhu Chruch Road, Juhu Mumbai 400049

Personal Information

Candidate id	9468
Name	Sonu singh
Date of Birth	1998-02-19
Salary (in USD)	4500/Per Month
Industry	Drilling / Rig
Sub Industry	Control Room Operations
Nationality	India
Primary Language	English,
Secondary Language	Hindi,
Total Years of Experience	7

Additional Information

Roles and Responsibilities	Additional Skills/Certification
-----------------------------------	--

Deliver comprehensive engineering support for well operations, leveraging advanced modeling (Landmark) and real-time data analysis to provide insights that enhance decision-making for drilling, completions, and well performance teams. • Drilled high angle wells in Nigeria's OML-13, OML-143, OML-146, OPL-2005, OPL-2006 Block. Prepared and executed the Drilling program • Designed and executed full abandonment programs for 30+ year-old legacy wells, ensuring permanent integrity and strict compliance with international regulations. Support ongoing well integrity assessments and remediation planning. • Reduced total well costs by 25% through strategic flat-time reduction and efficient third-party vendor management. Generated detailed performance and cost tracking reports using Power BI for asset managers. • Drilled multiple HPHT well up to 4500-5600m MD. Max Temp was 340 deg Fahrenheit. • Involved in planning an Ultra-HPHT well with an estimated bottom-hole pressure of 19 ppg and ~400°F temperature, contributing to casing design and overall well planning. • Responsible for day-to-day well-operation activities, Lesson Learn implementation. Cost Tracking of entire drilling & completion project & presenting well performance / cost tracking to asset manager. • Ensure 100% compliance with internal standards by issuing Management of Change (MOC) for any deviation. Maintain a lessons-learned database and implement best practices into future well programs to drive efficiency. • Collaborate daily with wellsite leaders and operations personnel. Integrate with adjacent disciplines including production and reservoir engineering to develop synergistic well management solutions. • Proven experience in well design, drilling operations, directional drilling, Coring and performance optimization, with a strong focus on performance monitoring and analysis. • Support well operation by monitoring rig operation on Real Time Monitoring Screen. • Maintain Lesson learn database & Provide inputs to engineering manager to be included in next drilling program. • Preparing Casing Tallies & cementing program, Plug & Abandonment (P&A) job Program in base.

Landmark all suite model such as compass, wellplan, stress check, openwell

Education Summary

Course	University	Passing Year	Country
Petroleum engineering	Lovely professional University	2020	India

Career Summary

Position	Employer	Country	From	To
Drilling Engineer	Sterling oil and gas(Bhatia Pia limited)	Nigeria		
Assistant Drilling supervisor	Focus energy limited	India	12/2019	03/2022
