Additional Information

Roles and Responsibilities	Additional Skills/Certification
-----------------------------------	--

As a Production Engineer, I am responsible for overseeing daily production operations to ensure efficiency, quality, and safety standards are consistently met. I monitor production processes closely, identify any deviations or issues, and take corrective actions to minimize downtime and maintain smooth workflow. I work on optimizing production performance by analyzing data, improving processes, and reducing waste to achieve maximum productivity. I collaborate with cross-functional teams including maintenance, quality control, and planning departments to ensure all production targets are achieved on time. I also assist in troubleshooting technical problems, performing root cause analysis, and implementing effective solutions to prevent recurrence. Ensuring compliance with safety regulations and company policies is a key part of my role, and I actively contribute to maintaining a safe working environment. Additionally, I am involved in preparing production reports, tracking key performance indicators (KPIs), and supporting continuous improvement initiatives. I have strong organizational and communication skills, enabling me to manage multiple tasks efficiently and work effectively within a team. I am always eager to learn new technologies and improve my technical knowledge to enhance overall production performance

- Good knowledge of production processes and operations
- Problem-solving and analytical skills
- Teamwork and communication skills
- Microsoft Office (Excel, Word)
- Basic knowledge of HSE standards
- Time management and ability to work under pressure
