Additional Information

Roles and Responsibilities	Additional Skills/Certification
<p>My responsibilities to be well monitoring when there are losses of fluid down hole, kick and another hazard (such as hole pack off, drag, vibrations, wellbore washout, etc) while drilling, tripping and cementing job and report to wellsite representatives as well as to implement safety and company policy. Cutting analysis and gas analysis returning from the wellbore which is associated with wellbore stability and formation evaluation. Final reporting and maintenance of equipment starting from unit installation until demobilization. I have good understanding in formation pressure and fracture gradient. I have worked in a field with overpressured characteristics such as saltwater kick limestone or high gas sandstone formation zone. I am hard worker, smart, and calm. I endure hectic and stress circumstances. I am ready to work in your company as soon as possible.</p>	<p>Junior Data Engineer Course – Geolog International, Ankara – Turkey Competence Certicifation Aessment Data Engineer Level 1 – Excellence Logging Turkey.</p>
