Salary (in USD)	3500/Per Month
Industry	Engineering & Science
Sub Industry	Electrical Engineer
Nationality	Azerbaijan
Primary Language	English,
Secondary Language	
Total Years of Experience	9

Additional Information

Roles and Responsibilities	Additional Skills/Certification
-----------------------------------	--

I am a Drilling Engineer with over 8 years of offshore experience, mainly working on HPHT wells on jack-up rigs. Throughout my career, I have been involved in well planning, preparing drilling programs and rig work instructions, BHA design, and real-time monitoring of drilling operations. I have a solid understanding of how to balance safety, cost, and operational efficiency to deliver wells successfully. I hold IWCF Level 4 and IADC WellSharp Supervisor certifications, and I take well control and safety very seriously. My experience includes conducting risk assessments, identifying potential hazards, and making sure proper contingency plans are in place, especially in challenging HPHT environments. I have worked closely with drilling contractors and service companies, supporting daily operations, tracking costs, and analyzing performance to find ways to improve. I am also comfortable reviewing data, optimizing bit performance, and applying lessons learned to future wells. Earlier in my career, I worked as an HSE Advisor, which helped me build a strong safety mindset and better understand offshore risks. I am known as someone who communicates well, works effectively with different teams, and stays calm in high-pressure situations. I am always looking to improve and contribute to safe, efficient, and well-executed drilling operations.

IWCF Level 4 IOSH
Managing Safely
Landmark (Wellplan)

Education Summary

Course	University	Passing Year	Country
Bachelor's Degree	Azerbaijan State Oil and Industry University	2013	Azerbaijan
Master's Degree	Azerbaijan State Oil and Industry University	2017	Azerbaijan
