Additional Information

Roles and Responsibilities	Additional Skills/Certification
-----------------------------------	--

Experience in drilling operations, tender management, and contract administration, My expertise includes preparing drilling programs, AFE, budget, monitoring and optimized daily drilling operation ...etc, preparing and evaluating drilling tenders, managing contracts, coordinating with cross-functional teams, and ensuring compliance with safety and regulatory standards. Please re wording for role and experience and responsibility in 200 words I have extensive experience in drilling operations, tender management, and contract administration within the oil and gas industry. My expertise includes developing detailed drilling programs, preparing Authorization for Expenditure (AFE) documents, and managing project budgets to ensure cost efficiency and operational success. I am skilled in monitoring daily drilling activities, identifying performance gaps, and implementing optimization strategies to enhance efficiency and reduce non-productive time. In addition, I have strong experience in preparing, reviewing, and evaluating drilling tenders, ensuring technical and commercial alignment with project requirements. I am responsible for managing contracts throughout their lifecycle, from negotiation to execution, ensuring compliance with company policies and industry regulations. I regularly coordinate with cross-functional teams, including engineering, procurement, HSE, and finance, to ensure smooth project execution and alignment of objectives. I also ensure that all drilling operations comply with safety standards and regulatory requirements, maintaining a strong focus on risk management and operational integrity. My role requires strong analytical skills, attention to detail, and the ability to deliver results in fast-paced and challenging environments.

Strong experience in tender preparation, bid evaluation, and contract management. Time management and ability to handle multiple projects simultaneously Well Control Certification (IWCF renewal upon request) Advanced proficiency in Microsoft Office (Excel, Word, PowerPoint) Data analysis and reporting for drilling performance optimization Familiarity with drilling software
