Documented drilling parameters, mud properties, and geological formations during 12-hour shifts, inputting data into the ECS database with 100% accuracy to maintain data integrity. • Mastered operation of gas detectors, chromatographs, and specialized tools for comprehensive mud logging analysis within the first month, contributing to accurate real-time data acquisition. • Monitoring Drilling Operations and Reporting Any Changes or Anomalies to the Drilling Team. • Detected and mitigated five critical drilling hazards by analyzing real-time mud logging data, preventing potential equipment failures and non-productive time during critical drilling operations. Track drilling data such as: Rate of Penetration (ROP) Pump pressure Hook load Torque Mud weight & temperature Detect abnormalities that may indicate formation changes or problems.

Completed An Intensive Two-Week Training Program at (Nriag) in Cairo, Egypt; Gained Expertise in Seismic, Electrical, And Magnetic Methods, Mastering Advanced Techniques and Instruments for Improved Geophysical Data Acquisition and Analysis. (09/2021) • Completed An Intensive Week-Long Training in Remote Sensing and GIS At (The National Authority for Remote Sensing and Space Sciences) in Cairo; Significantly Enhanced Technical Proficiency and Applied Knowledge in Geospatial Data Analysis. (08/2021) • Attended For One-Week Training Program at (The Desert Research Centre) Entitled Geological Influences on Ground Water. (09/2021) • Completed Professional Training at Rashid Petroleum Company (RASHPETCO), gaining practical expertise in petroleum exploration, subsurface data workflows, and industry-standard exploration techniques. (07/2022) • Engaged in a structured two-week training program at Gulf of Suez Petroleum Company (GUPCO), Egypt, with focused exposure to exploration methodologies, subsurface data analysis, and practical applications of petroleum geoscience.
