201, Creado, Juhu Chruch Road, Juhu Mumbai 400049

Personal Information

Candidate id	9642
Name	Behroz Khan
Date of Birth	2001-08-02
Salary (in USD)	3800/Per Month
Industry	Drilling / Rig
Sub Industry	
Nationality	Pakistan
Primary Language	Hindi,
Secondary Language	English,
Total Years of Experience	2

Additional Information

Roles and Responsibilities	Additional Skills/Certification
-----------------------------------	--

I'm a motivated Mechanical Engineer who graduated from the University of Engineering & Technology, Peshawar in 2024. I bring hands-on field experience in oil & gas drilling and maintenance, gained as a Trainee Drilling Engineer with CCDC on Rig 27, 29, and 31 in Sindh. On the rigs, I worked directly on drilling and casing operations, including a 3800-meter well that led to a hydrocarbon discovery. My responsibilities included rig down operations, fishing jobs to retrieve lost tools, perforation, BOP systems, daily operational reporting, and crew coordination under high-pressure conditions. I learned to troubleshoot complex drilling issues and ensure safety compliance across all tasks. Alongside drilling, I have strong maintenance experience from Nashpa and Chanda Oil Fields. There I handled gas compressors, centrifugal and diaphragm pumps, CAT engine maintenance, lubrication systems, and pressure-related troubleshooting. I also served as an Operation & Logistics Manager, managing procurement, inventory, and supply chain for construction projects. My technical toolkit includes AutoCAD, CREO Parametric, SAP ERP, and MS Office, supported by strong soft skills in team leadership, problem solving, and communication. I thrive in fast-paced environments and focus on optimizing processes while maintaining safety and efficiency. I'm eager to bring my field knowledge, technical skills, and commitment to continuous learning to a dynamic oil & gas team where I can contribute and grow.
