## Personal Information

<b>Candidate id</b>	9651
<b>Name</b>	Bakir Huseynov
<b>Date of Birth</b>	2003-06-10
<b>Salary (in USD)</b>	3000/Per Month
<b>Industry</b>	Engineering & Science
<b>Sub Industry</b>	Process Engineer
<b>Nationality</b>	Azerbaijan
<b>Primary Language</b>	English,
<b>Secondary Language</b>	
<b>Total Years of Experience</b>	4

## Additional Information

<b>Roles and Responsibilities</b>	<b>Additional Skills/Certification</b>
-----------------------------------	----------------------------------------

In my current role as a Graduate Integrity Engineer, I am responsible for supporting engineering activities that ensure the safe and reliable operation of assets through data analysis, risk assessment, and technical evaluations in accordance with industry standards. I regularly work under tight deadlines and operational pressure, prioritizing tasks effectively while maintaining a strong focus on safety and technical accuracy. My role requires close collaboration with operations and field teams, and I am comfortable working in site-based and field environments, including exposure to live operations and safety-critical activities. This experience has strengthened my ability to work effectively in high-pressure conditions, adapt quickly to changing operational demands, and follow strict HSE procedures. Through my work, I have developed a strong foundation in engineering judgment, operational awareness, and multidisciplinary teamwork, which are highly transferable to drilling engineering. I am particularly motivated to pursue a drilling engineer role because it offers greater field exposure, direct involvement in operations, and the opportunity to contribute hands-on to well delivery while applying engineering principles in dynamic, fast-paced environments.
