Additional Information

Roles and Responsibilities	Additional Skills/Certification
-----------------------------------	--

Accomplished Lead Drilling Engineer with 14 years of diverse experience spanning drilling, completion, intervention, and well integrity engineering. Renowned for successfully managing complex projects, consistently meeting tight deadlines, and delivering outstanding results in the oil and gas industry. Combines hands-on technical expertise with strong planning and analytical skills to drive operational excellence and achieve project objectives. Led and inspired a team of Drilling Engineers, strategically allocating workloads, setting priorities, and championing professional growth through targeted training and performance reviews. • Designed and executed well programs that consistently met or exceeded drilling and completion standards, integrating advanced technologies and optimized construction methods for offshore exploration and development. • Provided expert technical support across drilling exploration, slot recovery, and workover operations, ensuring alignment with project objectives and industry best practices. • Led the development and implementation of well delivery processes, guidelines, and standards as part of the well engineering excellence team. • Drove innovation in well design and drilling practices, achieving a 25% improvement in efficiency and a 15% reduction in non-productive time through strategic planning and adoption of new technologies

Drilling, completion, intervention, well integrity, slot recovery, P&A, operations, offshore. Language: English, Arabic & Norwegian (basic) CSD (Casing string design) Landmark EDM WellCAD
